

# MY FOREST WORKBOOK

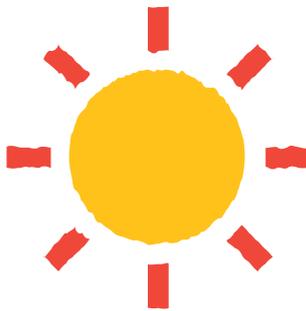

**Early Stages**

# Welcome to Illawarra Fly

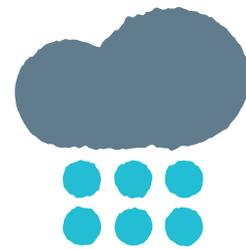

When I visited, the weather was:

cloudy

sunny

rainy

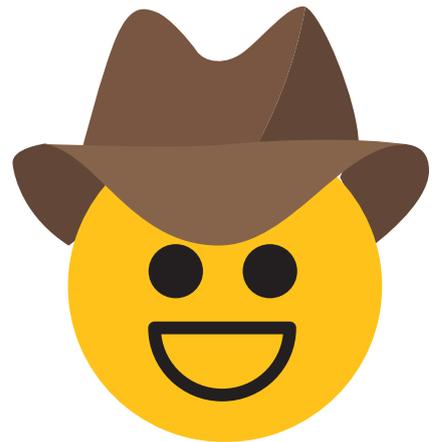

And I felt:

happy

excited

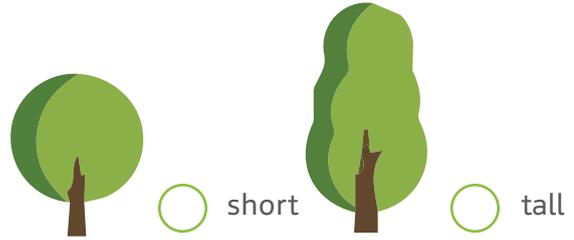

adventurous

# Early Stages Workbook

## Trees at Illawarra Fly

I reached out and touched the nearest tree to me. It was:

short

tall

and it felt:

and the colour of the leaves were:

Did you know? There are over 700 Eucalypt species in Australia. Koalas only like about 70 as they are fussy eaters and don't like to eat from the ones at IFLY so you won't find any koalas here!

## Animals at Illawarra Fly

Circle 3 animals that you could find in the Illawarra Rainforest:

Crimson Rosella

Tawny Frogmouth

Wombat

Koala

Kitten

What other animals do you think could life in the Illawarra Rainforest?

## Knights Tower

1. I went on the Treetop Walk today! The steel walkway was:

- 25-30 metres     15-20 metres     10-15 metres above the treetops.

2. I reached Knights Tower and I climbed  steps to the top!

3. Draw what you see:

## Early Stages Workbook

### What can you see, hear and smell?

1. I walked out onto the cantilever which can hold a maximum weight of 28 tonnes, the equivalent of:

- 200 wombats    500 wombats    800 wombats.

2. List the things you can see, hear and smell from the Treetop Walk!

See

Hear

Smell

### Tell us about your day!

1. My visit to  was  and favourite part of the day was .

2. Draw who you visited with below:

A large, empty rectangular box with rounded corners and a thin purple border, intended for drawing.

# Early Stages Workbook

It's colouring in time!
